No distinct landing/dashboard

While functional, it lacks a welcoming experience that provides context and sets expectations.

A smoother, more engaging transition into the user journey could enhance the overall experience.

LEARNER'S LICENCE (FAQ)

42px

1. WHY YOU NEED A LEARNERS LICENCE.

- A learner's licence is a permit that proves that you have basic knowledge of a motor vehicle and the rules of the road
- If you have a learner's licence you are only allowed to drive a vehicle when you are supervised and accompanied by a licensed driver.

Body

2. HOW LONG IS A LEARNER'S LICENCE VALID FOR IN SOUTH AFRICA?

- A learner's licence is valid for 3 years and cannot be extended

Contains large bodies of text, making it visually unappealing. Information could be condensed into visuals, with some content being unnecessary.

3. HOW MANY CATEGORIES ARE AVAILABLE FOR A LEARNER'S LICENCE AND THE REQUIRED AGE TO APPLY.

- Code 1: Motorcycle with or without a sidecar, quadracycle and tricycle. You must be 16 years or older for a motorcycle with an engine capacity of 125 cc or less and 18 years or older for a motorcycle with an engine capacity of 125 or more.

The content might be better suited as its own dedicated page.

The layout feels cluttered and overwhelming for the user.

Headings, subheading and bodies of text need a type of hierarchy!

Question 1

Time Remaining: 59:56

What is compulsory with respect to a seatbelt.

Visual alignment of answers

- ☒ A. It is compulsory to wear a seatbelt while reversing or moving in or out of a parking bay or area.
- ☐ B. Seatbelts are not compulsory to wear when moving forward.
- ☐ C. Seatbelts are compulsory to wear when moving forward for children and adults but it only covers persons 3 years of age and older.

It would be more user-friendly if the answer option could be selected directly, rather than requiring the user to press a small button on the side.

A progress bar and feature that shows which questions you might have missed would make a great addition

The answer should not be pre-selected to ensure the user can actively make a choice.
